INTRODUCTION

This is a directory of professional personnel who administer the radiological health program activities in State and local governmental agencies. Included in the Directory is a listing of each State health officer or the head of the agency responsible for the radiological health program.

The name, address, and telephone number of the radiological health program is listed, followed by the alternate contact who, in many instances, may be chief of a larger administrative unit of which the radiological health program is a subunit. The address for the program is also included if it differs from the official health department or agency. Generally, the titles of the personnel listed will indicate the administrative status of the radiological health program.

The Directory also includes a list of the key names, addresses, and phone numbers of selected key personnel in those Federal agencies listed in the Contents.

Please report corrections or additions to the listings in this directory so that it may be kept up to date. Address correspondence to:
